UNIFORMED FIREFIGHTERS AND CABO WABO HEAT UP NEW YORK'S BATTERY PARK WITH ELECTRO-VOICE® XLC™ LOUDSPEAKERS

Burnsville, MN (September 12, 2003): Brooklyn New York based Music First Productions and the Uniformed Firefighters of Greater New York got a taste of the "Cabo Wabo" enthusiast, Sammy Hagar, firsthand and up-close recently in New York City's Battery Park.

In what turned out to be a beautiful 70-degree day, Sammy Hagar played a benefit for the New York City Uniformed Firefighters Fund to a packed and lively crowd. The firefighters were protesting the impending closure of 8 New York City firehouses. The stage was set for a perfect show, and the New York firefighter's emotions were charged up for a rocking performance. Hagar gladly delivered.

To keep the crowd moving, Music First Productions provided the outdoor stage and eight new Electro-Voice XLC 127+ line array speakers for the event. Michael Bosworth, owner of Music First Productions said of the sound system "One of the major selling points in acquiring the Electro-Voice XLC 127+ line array speakers were their light weight and compact design, which allows us to rig them easily with ground supports. We are concerts producing outdoor festivals all summer long, and the ability to get the speakers into the air quickly and easily is very important to us."

Music First Productions recently purchased twelve Electro-Voice XLC 127+ line array speakers, which Michael Bosworth said "...were perfect for Sammy's show. Flying four line array boxes per side, we were able to cover the thousands of people that came out to support the firefighters. The 120-degree horizontal coverage was phenomenal, and the output was

staggering for such a compact box." Bosworth stated.

The crowd of firefighters, and their family and friends seemed to enjoy the sound of the band as well. The Uniformed Firefighters Association of Greater New York currently has three funds to compensate the families of fallen and active firefighters.
