Model ADH-1 Driver-to-Horn Adaptor

DESCRIPTION

The ADH-1 allows use of various drivers on the Electro-Voice HR series high-frequency horns. The HR series provides extremely precise dispersion control over the frequency range from 400 Hz to 16 kHz. Most bolt-on drivers with 2.54cm (1-inch) throats and all screw-on drivers with 1-3/8"-18 mounting threads may be used.

INSTALLATION

To use with threaded drivers the plastic plug must be removed from the small end of the ADH-1. The driver may then be inserted.

To use with bolt-on drivers, the plastic plug must be inserted in the ADH-1. Following are some of the drivers that may be used:

ALTEC 802, 806, 807, or 808
(two 1/4-in. bolts on a 3 in. dia. circle)

DUKANE 5A350, 5A355, 5P350, or 5P355 (three 1/4-in. bolts on a 2.25 in. dia. circle)

JBL 2406, 2410, 2420, 2460, 2461, or 2470 (same three-hole mounting as above.)

WARRANTY (Limited)

Electro-Voice Professional Sound Reinforcement Loudspeakers and Accessories are guaranteed for five years from date of original purchase against malfunction due to defects in workmanship and materials. If such malfunction occurs, unit will be repaired or replaced (at our option) without charge for materials or labor if delivered prepaid to the proper Electro-Voice service facility. Unit will be returned prepaid. Warranty does not cover finish or appearance items or malfunction due to abuse or operation at other than specified

conditions. Repair by other than Electro-Voice or its authorized service agencies will void this guarantee.

For shipping address and instructions on return of Electro-Voice products for repair and locations of authorized service agencies, please write: Service Department, Electro-Voice, Inc., 600 Cecil Street, Buchanan, Michigan 49107 (Phone: 616/695-6831).

Electro-Voice also maintains complete facilities for non-warranty service.

Service and repair address for this product: Electro-Voice, Inc., 600 Cecil St., Buchanan, Michigan 49107.
